

241 P

STEEL

Single flavor counter top pump machine to produce soft ice cream and frozen yogurt.
Top Performance

The highest performances for the most demanding customers

High efficiency components

Achieve the top performances and non-stop production

New charming look

Introduce a touch of class with the new stainless steel front panel

Overrun and consistency control

Different consistency control settings for various mix types and easy adjustable overrun

The above dimensions refer to the air cooled version.
Water cooled model is without rear chimney

Optional configurations

Self-pasteurization

With our self-pasteurization system the machine can be cleaned and disassembled only 9 times per year

Teorema Remote Control

It gives very important info about the machine, it facilitates the service system and helps the cleaning schedule

Single portions dispensing head

With interchangeable nozzles to make single portions and delights

Self closing device

The dispenser closes automatically stopping the flow of ice cream, eliminating any waste and preventing mess

Only You

Customize your machine with your colours and logo

Wash Kit

Optional tap above the tank to facilitate the cleaning operations

	Flavours	Mix Delivery System	Hourly production (75gr portions)	Tank Capacity lt	Cylinder Capacity lt	Nominal Power kW	Fuse Size A	Power Supply	Cooling System	Refrigerant	Net Weight kg
241 P STEEL	1	Pump	350*	12	1,75	2,9	10	400/50/3**	Air/Water	R404	140

* production capacity depends on the mix used and the room temperature

** other voltages and cycles available upon request

Features

Benefits

Stainless steel pressurized gear pump	Ensures the best ice cream texture, quality and high overrun, adjustable from 40% to 80%
Independent pump transmission	Helps to extend the pump and gears life and allows flexibility and maximum performance
Interactive display	Communicates with the operator delivering instructions and data regarding machine performance
Tank agitator	Prevents product stratification and helps to reduce foam by maintaining a fluid consistency
Tank rubber lid	Light and handy. It facilitates the cleaning and filling operations
Stainless steel beater	High efficiency beater with double spirals and idler for a soft and creamy product
Adjustable ice cream flow	Adjustable product flow to meet your specific dispensing speed and volume requirements
Direct expansion cooling cylinder	Optimizes refrigeration efficiency for fast freeze downtime, less waste of product ensuring higher quality and energy saving
Defrost system	Possibility to heat the cylinders to simplify the cleaning procedure
Rear panel chimney (air cooled version)	Allows space optimization and to place one machine besides the other

241 P is produced by Carpigiani with Quality System UNI EN ISO 9001.
